DEVELOPMENT PROJECTS

MANATEE COUNTY (NORTH OF THE RIVER SUBMARKET) DEVELOPMENT

This submarket will also detail commercial and governmental development. Generally, the market extends north of the river to Moccasin Wallow Road, and along both sides of Interstate 75. Our records indicate there are presently 2,407 Vacant Developed Lots and 3,495 being permitted/under construction. Over the 12 month period ending December 31, 2018 there were 467 new home closings with an average purchase price point of \$298,500. This suggest 5 years of inventory; however, our expectation is that velocity will increase significantly given the anticipated price points, lack of future lots in South Hillsborough County. Most new development is occurring in the Moccasin Wallow corridor, so expect extensive future commercial supporting services.

NON-RESIDENTIAL DEVELOPMENT

There is a new Mobil/7-11 nearing completion in the northwest quadrant of Interstate 75 and Moccasin Wallow Road. In the southeast quadrant the Publix anchored shopping center is well underway. There are extensive entitlements, including hotel, and outparcels. The initial development appears to be a freestanding Publix with limited in-line tenants. In the northwest quadrant is signage describing 288 acres with 15 acres designated as pad sites called Robinson Gateway. A new elementary school is well underway along the south side of Moccasin Wallow Road, proximate to US Highway 301. Similarly, there is a new High School under construction along the south side of Erie Road, proximate to US Highway 301. Wagner Realty is listing pad sites along the north side of US Highway 301 near Ft. Hamer Road in a development called Village Square. There is a new AutoZone nearing completion along the south side of US Highway 301 east of Interstate 75. The massive industrial site located in the northwest quadrant of Interstate 75 and US Highway 301 is nearing completion of the initial phase.

The argument could be made that North Manatee, rather than Lakewood Ranch, is the **current hotspot for development in Manatee County.**
